

JButton

```
classDiagram
    class JButton
    class JGradientButton["it.emarolab.cagg.debugging.base\nComponents.JGradientButton"]
    JGradientButton --|> JButton
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'JButton'. Below it is a larger box labeled 'it.emarolab.cagg.debugging.base Components.JGradientButton'. A blue arrow points from the bottom box up to the JButton box, indicating that JGradientButton inherits from JButton.

it.emarolab.cagg.debugging.base
Components.JGradientButton
